

I do not feel the FCC should not implement any proposal that would lessen Indiana's or any other state's Telephone Privacy law protections. The FCC should set the bare minimum. If the states wish to restrict calls further, they should be allowed to.

Before I was on the Indiana Do Not Call List. I received 20-30 calls a week from telemarketers. After being on the list I have only received 3 calls in the last 11 months.

Please do not make me have to begin screening calls again.
